

# **Promenade by the Lake Ełckie**

The promenade extends along the Lake Ełckie, situated at the city centre. It is a nearly seven kilometre long section of the walking surface, with bike and roller blade lanes.

While walking down the promenade you can visit many pubs and restaurants situated longwise, some of them floating on water. Those who have a car will find many convenient parking places there. During the walk, you can also admire interesting sculptures made during the International Sculptor's Workshops or sit down on one of the stylish benches. The historic bridge (formerly - drawbridge), sparkling with fabulously colourful lights, leads from the promenade to the island with the Teutonic Order Castle. Many cultural and sports events take place along the beautiful, elegant boulevard, especially in summer.
